## WELCOME GUIDE

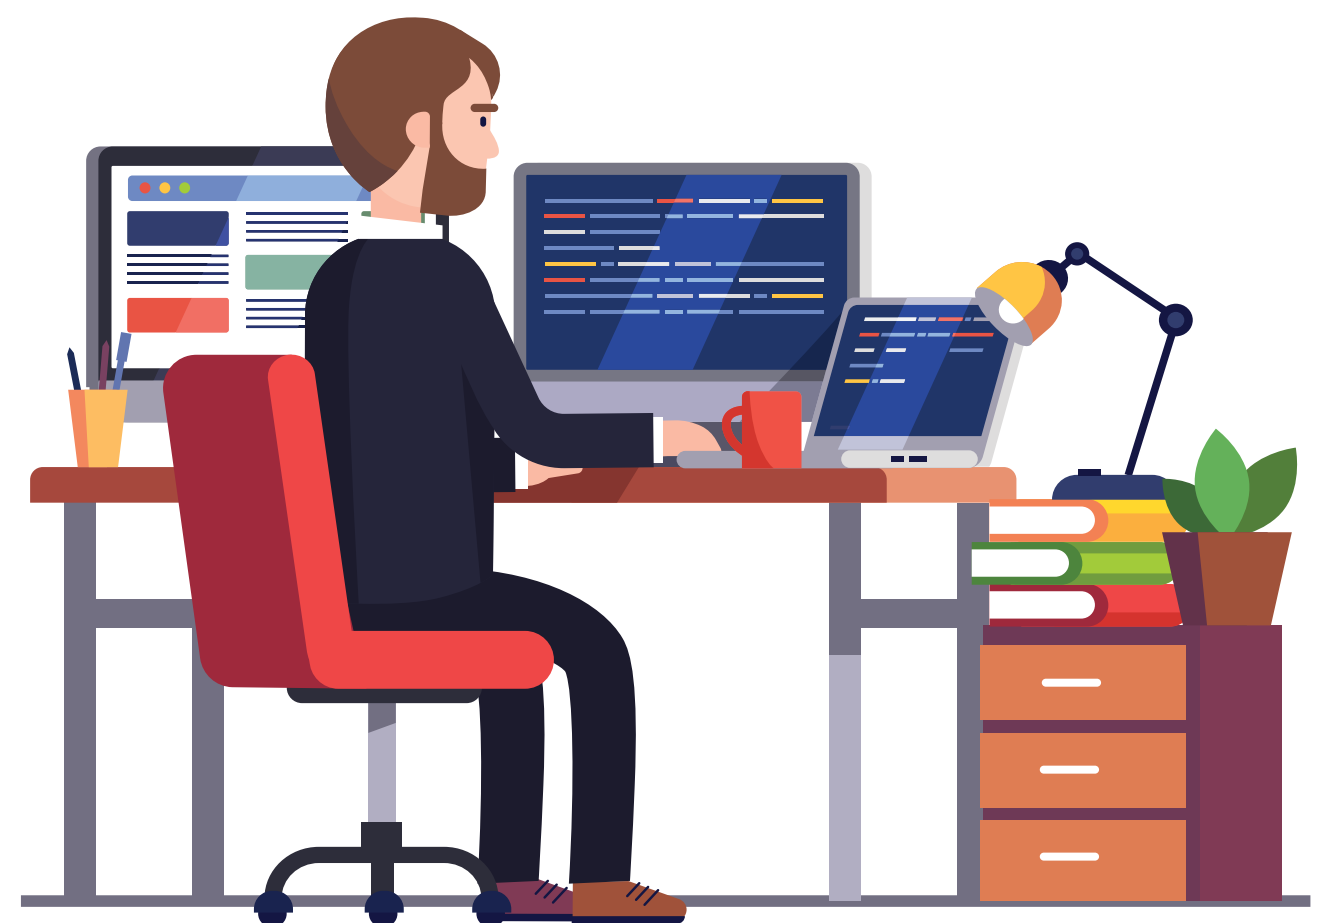

# WHAT IS BLOCKONOMICS?

**B**lockonomics is a decentralized Bitcoin payment solution that provides you with specialized transactional tools to enhance your BTC use. Founded in April 2015, our global team of seasoned crypto developers and marketing specialists have joined together in expanding the infinite possibilities that blockchain technology has to offer.

- A **decentralized** and **permissionless** Bitcoin payment solution
- Payments go **directly to your wallet** - get paid instantly
- **No security risks** - we don't have access to your private keys. You control your Bitcoins
- **Permissionless** - no KYC/documentation required. Only email required. Borderless and permissionless - like Bitcoin itself!

ABOUT US

## ACCEPT BITCOIN PAYMENTS ON ECOMMERCE

"There are almost 200 currencies of the world, but there's only one international currency."

- Andreas M. Antonopoulos

Successful online stores are always on the hunt for new audiences and payment options. Increase your revenue by accepting Bitcoins as a new payment solution.

Bypass the massive credit card transaction fees. Control your money and "be your own bank".

# BORDERLESS & FRICTIONLESS PAYMENTS

## CHEAPER THAN YOUR PAYMENT PROCESSOR

Every transaction that uses Blockonomics incurs a 1% transaction fee. We're significantly cheaper than the alternatives, such as PayPal and popular credit card processors which charge 2.9% plus fees. That's at least 66% cheaper than what you're paying right now.

# OTHER BLOCKONOMICS PRODUCTS

## Wallet Watcher Address Tracker >>

---

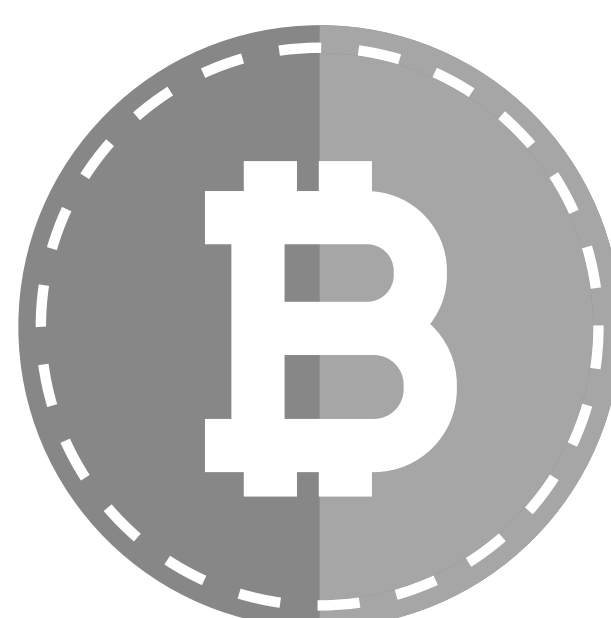

The most popular Bitcoin Address/Wallet Watcher in the world. Monitoring addresses has never become easier with Blockonomics' free Wallet Watcher. Monitor your offline wallet activity, or track transactions of any address on the blockchain.

## Peer-to-Peer (P2P) Bitcoin Invoicing >>

---

Perfect for freelancers that are looking to get paid in Bitcoin, Blockonomics offers a free invoicing solution. P2P invoicing allows you, the sender, to generate a unique and encrypted invoice, which can be sent to your recipients to fulfill in Bitcoin.

## Send Bitcoins via Email >>

---

Want to gift Bitcoins to a friend?

Blockonomics allows you to send Bitcoins via email to someone who may not have a Bitcoin address. Simple and effective.
